No onsite registration and payments will be accepted. Both, registrations and payments must be validated through the registration platform.

Therefore, each participating authorized individual or National federation has to create a user account. This user account and all entered data can be reused for all other Premier League events.

The online registration of athletes will be openly disclosed for everyone from the beginning, allowing consultation by WKF NFs of the competitors registered in real time. Once the seeding has been done, the draw must use the random process provided by the software. This process is WKF approved and guarantees random placement of all participants (excepting the first eight registered athletes of the WKF Ranking of each category), without separation of competitors from the same countries or teams. This is to express the character of the Premier League, which is a tournament series for individual members of WKF and not of National Federations or teams, and to give all competitors equal chances.
